

The "Auto-Lock" Service

Never miss another opportunity

In an effort to serve you and provide you the opportunity to take advantage of very narrow windows of low interest rates, we have created the Auto-Lock service. This is an exclusive service which is designed to help you protect you from losing thousands of dollars in cost-saving opportunities.

Interest rates can and do move very quickly! In the last 12 months, Rates on 30 year mortgages have varied by almost 1.25%. Today's rate could be gone tomorrow.

By signing up for this exclusive service your ability to lock a target rate in a short window of time becomes greatly enhanced.

When you sign-up for the Auto-Lock agreement you protect yourself from costly market volatility!

An Auto-Lock authorizes your Mortgage Company to lock a "target" rate when it becomes available, taking the worry of fluctuating interest rates.

*Be prepared for market volatility...
Don't miss another window*
